Our Vision

Our Vision at PHC is to create a global community using person centre approach where the participant/client can achieve their full potential and create opportunities to improve their quality of life, have freedom of expression, feel empowered, and can achieve their target goals.

Our Mision

Our Mission at Patty Health Care is to focus more on the ability of individuals with a disability, empowering them to achieve their goals and be part of the community by eliminating barriers and creating opportunities for them to succeed.

Our Values

Patty Health and care support services are operated and built upon the Values of: Integrity, respect, Reliability, Consistency, trust, kindness, and empathy.
